

# The Eiffel Tower

The Eiffel Tower is a wrought-iron lattice tower on the Champ de Mars in Paris, France.

It was constructed from 1887 to 1889 as the centerpiece of the 1889 World Fair.

The tower is 330 metres (1,083 ft) tall and was the tallest man-made structure in the world for 41 years until the Chrysler Building was completed in New York City in 1930.

# History and Architecture

Gustave Eiffel designed and built the tower. It was named after him.

The tower has three floors for visitors. The top floor observatory is at 276 m.
